

CHANCE CUMMINGS

Cybersecurity Generalist · SOC Analyst · IT & Security

Ashland City, TN | 615-693-1113 | thechancecummings@gmail.com
chancecummings.com | darkfiresecurity.com | github.com/chancecummings

PROFESSIONAL SUMMARY

IT and security professional combining enterprise endpoint/MDM experience at a major academic medical center with a deep, self-built security portfolio and a founded cybersecurity consultancy. **CompTIA A+ and Network+ certified**, Security+ (SY0-701) in progress, pursuing a B.S. in Cybersecurity. Strong across networking fundamentals, Windows/Linux administration, scripting, and security tooling — and skilled at translating technical risk into plain language for non-technical stakeholders. Seeking a cybersecurity generalist or SOC analyst role.

KEY QUALIFICATIONS — WHAT I BRING

- ▶ **The certs employers screen for:** CompTIA A+ & Network+ in hand, Security+ (SY0-701) in progress, plus the Google IT Support Professional Certificate.
- ▶ **Enterprise endpoint security at scale:** Provision, image, and harden iOS and desktop endpoints across a large healthcare environment using Microsoft Intune and Apple Business Manager (MDM).
- ▶ **Hands-on offensive & defensive skills:** Network reconnaissance with Nmap, log review and incident-response workflows, DNS filtering, and multi-OS virtual lab environments.
- ▶ **Scripting & automation:** PowerShell and Python applied to real IT and security workflows.
- ▶ **Founder of Dark Fire Security:** Built a security consultancy plus a portfolio of security web apps, original research, and an automated-monitoring platform concept.
- ▶ **Battle-tested communication:** Years of high-volume customer-facing and logistics roles — reliable under pressure and clear with end users.

TECHNICAL SKILLS

Security: Incident response fundamentals, log review & analysis, network reconnaissance (Nmap), host enumeration & service fingerprinting, vulnerability identification, network hardening, DNS filtering (Pi-hole), IAM, threat intelligence basics, risk assessment & scoring

Networking: TCP/IP, DNS, DHCP, VPN, LAN/WAN, subnetting, IP networking, Active Directory fundamentals

Endpoint & Systems: Windows 10/11, Linux (Ubuntu/Debian, Kali), macOS, iOS; Microsoft Intune, Apple Business Manager, VMware Horizon VDI, ServiceNow; MDM provisioning, imaging, asset management

Scripting & Dev: PowerShell, Python, Bash, HTML/CSS, JavaScript, JSON, Git/GitHub

Cloud & Data: AWS fundamentals; SQL, MySQL, PostgreSQL, SQLite

Tools & Lab: VMware, VS Code, Chrome DevTools, Docker, Tailscale, Pi-hole, virtualized multi-OS home lab

CERTIFICATIONS & LICENSES

CompTIA Network+	Google IT: Tech Support, Sys Admin & Infrastructure, Networking — 2024
CompTIA A+ — valid 2024–2027	Intro to AWS Solutions — 2023
CompTIA Security+ (SY0-701) — In Progress	CDL Class A · Certified Lawn Care Pro (UTK, 2024–2026)
Google IT Support Professional Certificate — 2024	

PROFESSIONAL EXPERIENCE

- Field Service Technician — CTG @ Vanderbilt University Medical Center** Nashville, TN · Present
- Provision, image, and harden iOS and desktop endpoints across a large healthcare enterprise using **Microsoft Intune** and **Apple Business Manager** — MDM enrollment, compliance policies, and app deployment.
 - Deploy and support **VMware Horizon VDI** for clinical and administrative staff; troubleshoot hardware, software, and connectivity at the point of care.

- Track and manage IT assets in **Pegasus CI**; document, triage, and resolve incidents and service requests in **ServiceNow**.
- Apply HIPAA-aware handling of devices and data; use **PowerShell** to streamline provisioning and support workflows.

Sales Assistant — A1 Pawn

Springfield, TN · Present

- Handle high-volume in-person sales, pawns, loans, and financial transactions with a focus on data accuracy and customer service.
- Own the full online and social-media presence; built and maintain a custom **pawnshop analytics dashboard** for sales and inventory insight.
- Contributed to the shop being voted "Best Pawn Shop" in the county roughly four consecutive years.

Logistics & Operations — UPS (Feeder Operator / CDL) & Jumpp Logistics (Contractor)

Nashville, TN · 2021–2024

- Operated heavy commercial vehicles with an impeccable safety record; coordinated with hub operations to meet strict deadlines in high-pressure environments.
- Managed complex delivery routes and used logistics/mobile apps for tracking and 100% on-time fulfillment.

Owner / Operator — Double C Solutions, LLC

Ashland City, TN · 2023–2024

- Founded and ran a service business — scheduling, invoicing, client communication, and the company's web, email, and IT troubleshooting needs — while attending school full-time.

Earlier Experience: Montgomery Farmers Co-Op (Power Equipment Sales) & Riley Brothers Farms — developed mechanical aptitude, inventory management, financing/sales, and a strong work ethic through equipment sales, assembly, and field operations.

SECURITY PROJECTS & PORTFOLIO

DARK FIRE SECURITY — FOUNDER · DARKFIRESECURITY.COM

- Founded a cybersecurity consultancy serving small businesses, farms, and tradespeople across Middle Tennessee; built the brand, website, and service offerings end to end.
- **SENTINEL** — designed an automated security-monitoring and lightweight pentesting platform concept for SMBs (React / Next.js).
- **Zero-Trust Proximity Protocol (ZTPP)** — original security research on LAN-discovery exposure, packaged as an RFC-style spec, whitepaper, and interactive demo.

HANDS-ON SECURITY LABS

- **Network Security & Reconnaissance** — subnet discovery, host enumeration, and service fingerprinting with Nmap; analyzed internal exposure and documented remediation.
- **Home & Small-Business Security Lab** — multi-OS environment (Windows 11, Ubuntu/Debian, Kali, virtualization); DNS filtering with Pi-hole; log review and basic incident-response workflows.
- **Self-managed home-lab infrastructure** — Docker services and a Tailscale mesh on a dedicated server for security tooling and testing.

SECURITY WEB APPLICATIONS · CHANCECUMMINGS.COM

- **Small Business Cyber Risk Intake & Scoring** app and a **Cyber Risk Report generator** that translate findings for non-technical owners.
- **Phishing Awareness & Detection** educational site for end-user training.
- **DarkChef** — a CyberChef-style tool supporting encoding, decoding, and encryption/transformation pipelines.
- **chancecummings.com** — personal portfolio and résumé site; public GitHub repos with reproducible labs (objectives, commands, outputs, lessons learned).

EDUCATION

B.S. in Cybersecurity — Western Governors University (WGU) · **In Progress**

Agriculture Business Coursework — Austin Peay State University · 2015–2019

Languages: English (Native) · Spanish (Basic Conversational)
